

Wednesday, 17.02.2021 - Mopti – Mali
EU project

Regional validation workshop of the “Study on the Security Challenges and Needs of Populations in the Mopti Region”.

On Wednesday, 17th of February 2021 the regional validation workshop of the “Study on the Security Challenges and Needs of Populations in the Mopti Region” as part of the sub-regional project: “Security for All” co-funded by the European Union in partnership with Friedrich-Ebert-Stiftung was held in Mopti.

The one-day validation workshop brought together some thirty participants from the city of Mopti and the various circles in the region. Participants discussed the contents of the report of the study presented by the expert in charge **M. Ousmane KORNIO, Senior Expert** and **Amadou CISSE, Junior Expert**. The data for the study was collected through interviews and field research in Mopti and two circles in that region.

It should be stated that 3 studies and validations are planned in Kayes, Mopti and Gao. They are being carried out as part of the regional project: “**Security for All**” co-funded by the **European Union** in partnership with **Friedrich-Ebert-Stiftung** and aims to strengthen/support security sector reforms with the aim of increasing civil society involvement in security sector reform processes.

The recommendations of the regional validation workshop have been numerous and very relevant and will serve to enrich the content of the report of the study. After all, three studies are

validated, they will be published and presented to policymakers and civil society in Bamako to feed in other activities of the project with potential other target groups.
